All providers must be: at least 18 years of age; able to prevent transmission of communicable disease; able to communicate expressively and receptively in order to follow individual plan requirements and beneficiary-specific emergency procedures, and to report on activities performed; and in good standing with the law (i.e., not a fugitive from justice, a convicted felon who is either under jurisdiction or whose felony relates to the kind of duty to be performed, or an illegal alien). Licensed professionals must act within the scope of practice defined by their licenses. "Supervision" is defined by the Occupational Regulations Section of the Michigan Public Health Code at MCL§333.16109 and, as appropriate, in the administrative rules that govern licensed, certified and registered professionals.

The following describes qualifications required in addition to the above for the identified staff.

Aide - Individual is able to perform basic first aid procedures and is trained in the beneficiary's plan of service, as applicable. Aides serving children on the Children's Waiver and the Waiver for Children with Serious Emotional Disturbance (SEDW) must also be trained in recipient rights and emergency procedures. Additionally, aides serving children on the Children's Waiver must be employees of the CMHSP or its contract agency, or be an employee of the parent who is paid through the Choice Voucher arrangement.

Child Mental Health Professional - Individual with specialized training and one year of experience in the examination, evaluation, and treatment of minors and their families and who is a physician, psychologist, licensed or limited-licensed master's social worker, licensed or limited-licensed professional counselor, or registered nurse; **or** an individual with at least a bachelor's degree in a mental health-related field from an accredited school who is trained and has three years supervised experience in the examination, evaluation, and treatment of minors and their families; **or** an individual with at least a master's degree in a mental health-related field from an accredited school who is trained and has one year of experience in the examination, evaluation and treatment of minors and their families.

[This is a requirement for any Peer Support Specialist certified after July 1, 2011.] Because of their life experience, they provide expertise that professional disciplines cannot replicate. Individuals employed as Peer Support Specialists serving beneficiaries with mental illness must meet MDCH specialized training and certification requirements. Peer Support Specialists who assist in the provision of a covered service must be trained and

supervised by the qualified provider of that service. Peer Support Specialists who provide covered services without supervision must meet the specific provider qualifications.

Psychologist - References to "psychologist" in this chart and in the Medicaid Provider Manual mean a psychologist who is fully-licensed, limited-licensed or temporary limited-licensed by the State of Michigan.

Qualified Mental Health Professional (QMHP) - Individual with specialized training or one year experience in treating or working with a person who has mental illness; **and** is a psychologist, physician, educator with a degree in education from an accredited program, social worker, physical therapist, occupational therapist, speech pathologist, audiologist, registered nurse, therapeutic recreation specialist, licensed or limited-licensed professional counselor, or a licensed physician's assistant. An individual with a bachelor's degree in a human services field who was hired prior to January 1, 2008 and performed in the role of a QMHP prior to January 1, 2008 would also qualify.
